

## Fall 2019 Semester Plan

During the Fall 2019 Semester, I will take one course and work full-time as an educator. I am enrolled in LIS 5443: Collection Development and Management (Goal 4.1).

LIS 5443 will support my knowledge and skills pertaining to building and maintaining a library collection. I hope this course builds my knowledge of quality print and nonprint resources. It is my hope that it provides resources and tools to help with the selection of materials. The course will further my knowledge on how to gather information on the needs and wants of users as well as how to ensure the collection is inclusive and represents diversity (Goal 1.5, 1.7, 2.1, 2.2, 3.4). Lastly, I hope LIS 5443 supports my understanding of licensing and policies regarding developing and justifying the library's collection (Goal 3.1).
